

Langer Mariano Pereira

Date of birth: 21/01/2003 | **Place of birth:** India | **Nationality:** Portuguese | **Gender:** Male | **Phone:** (+91) 7218389307 (Home) | **Email address:** langerpereira12@gmail.com | **Website:** langerpereira.netlify.app | **Address:** India (Home)

• ABOUT MYSELF

Software Developer with experience in building scalable web applications and working with structured data using PHP, MySQL, and JavaScript. Strong foundation in algorithms, database systems, and software engineering principles. Passionate about advancing my knowledge in Computer Science to develop efficient, intelligent solutions for real-world problems.

Following my transition to Portuguese nationality, I was required to obtain an Indian visa, which did not permit formal employment.

• EDUCATION & TRAINING

BACHELOR OF ENGINEERING IN COMPUTER (HONOURS)- DON BOSCO COLLEGE OF ENGINEERING

Programming & OOP (C/C++), Data Structures & Algorithms, DBMS & SQL, Software Engineering, Operating Systems, Web Technologies, Probability & Statistics, Linear Algebra & Calculus, Machine Learning, Artificial Intelligence

Final grade: 8.16 | **Level in EQF:** 6

08/06/2020 - 29/07/2021 - VERNA, INDIA

HIGHER SECONDARY EDUCATION (SCIENCE)- FR. AGNEL MULTIPURPOSE HIGHER SECONDARY SCHOOL

Level in EQF: 4

04/06/2018 - 08/04/2019 - COLVA, INDIA

SECONDARY EDUCATION- INFANT JESUS HIGH SCHOOL

Level in EQF: 3

• WORK EXPERIENCE

01/03/2026 - CURRENT

FREELANCE WEB DEVELOPERSELF-EMPLOYED

- Developing and delivering web projects for clients on a freelance basis
- Building dynamic, responsive web applications using NextJS, PHP, JavaScript, and MySQL
- Handling UI/UX design, frontend development, backend logic, and ongoing maintenance independently
- Managing client communication, project timelines, and technical decisions throughout

01/12/2025 - 13/02/2026 - PORVORIM, INDIA

SOFTWARE DEVELOPERKILOWOTT PVT LTD

- Delivered 3 production-grade web applications with full CRUD workflows, secure session handling, and role-based authentication using PHP, MySQL, JavaScript, and AJAX.
- Developed custom WordPress themes from scratch for live client projects, building reusable components

and dynamic CMS functionality.

- Implemented advanced frontend interactions using JavaScript, GSAP, and Anime.js with responsive, cross-browser-compatible behavior across all devices.
- Performed UAT, functional testing, and UI validation on live environments, collaborating with designers to convert wireframes into pixel-perfect interfaces.

01/07/2025 - 30/11/2025 - PORVORIM, INDIA

JUNIOR SOFTWARE DEVELOPER KILOWOTT PVT LTD

- Assisted in developing web applications using PHP, MySQL, JavaScript, and Bootstrap, gaining hands-on experience with full-stack development workflows.
- Supported the development and customization of WordPress themes and plugins for client websites.
- Implemented responsive layouts and interactive UI components using HTML, CSS, and JavaScript.
- Participated in debugging, testing, and code reviews, improving code quality and learning industry development practices.
- Worked closely with senior developers to understand database design, API integration, and deployment processes.

01/07/2024 - 24/08/2024 - MARGAO, INDIA

WEB DEVELOPER INTERN BODHAMI PRIVATE LIMITED

- Designed and developed a dynamic vehicle showroom website using Next.js with optimized page performance and responsive design.
- Built a secure user authentication system using PHP, SQL, and JavaScript with session handling and input validation.
- Led a team of 5 developers to build a Study Abroad CRM, centralizing student-advisor communication and application tracking.
- Conducted user research, wireframing, and prototyping in Figma to define UI workflows and layout structure.
- Managed project backlog, database architecture, and remote team coordination to ensure on-time delivery.

● **SKILLS**

Python | statistics | Git | Microsoft Excel | JavaScript | SQL | Angular | C++ | WordPress | Figma & Sketch | Java, Java Spring Boot | Javascript (ReactJS, NodeJS, NextJS), HTML, CSS | Bootstrap, JQuery, Three.js

● **PROJECTS**

01/07/2024 - 27/10/2025

Study Abroad CRM (Final Year Project) Built a CRM platform using Angular and Spring Boot to streamline communication between advisors, administrators, and students. Managed student applications, counselling workflows, and administrative operations through a centralized system.

15/05/2026 - CURRENT

Uppal Property Estates Rental & Lettings Platform, Developed a full-stack property listing platform for a London-based estate agency using Next.js, enabling property search with filtering by type, bedrooms, and listing status (buy/rent/let). Integrated Cloudinary for image management, NeonDB (PostgreSQL) for property data, Railway for backend hosting, and Web3Forms for client enquiry handling.
